## **Nurse Anesthetists Now Have Online Option for Per Diem Insurance**

September 15, 2008 – Chicago-based Healthcare Source Insurance now provides with a user-friendly online per diem insurance product that can be renewed on demand online throughout the year. The service is available at [www.HealthcareSourceInsurance.com](http://www.HealthcareSourceInsurance.com).

“We developed this product in response to the growing needs of independent contractor CRNAs who want to work as anesthesia providers part-time at other healthcare facilities,” says Ed Kuhn, of Liability Insurance Solutions, the company that created the new service. “Our goal was to establish a single easy-to-use source for them to apply for and purchase coverage online for their contract work. Currently, no one else offers anything quite like this.”

This new online service fills an important gap because nurse anesthetists working as independent contractors on a part-time, short-term basis are often responsible for obtaining their own medical professional liability insurance. CRNAs who wish to apply for coverage can visit [www.HealthcareSourceInsurance.com](http://www.HealthcareSourceInsurance.com), where they pay an annual fee of \$50 to join and enroll. The cost of insurance is \$85 per calendar day for claims-made coverage, which includes a two-year extended claims reporting provision.

Litigation against members of the medical community is a major concern for doctors, nurses, and other allied medical professionals. Most have liability coverage as part of their regular full-time positions, but that coverage doesn't extend to work done at other facilities as independent contractors. In those situations, the professionals themselves must obtain their own insurance.

### **About HSI**

Healthcare Source Insurance is a division of Liability Insurance Solutions, Inc., an independent insurance agent. We have been covering anesthesia providers in many diverse practice settings since 2001. Our agents understand the needs and requirements of the independent contractor nurse anesthetist.

# HEALTHCARE SOURCE INSURANCE

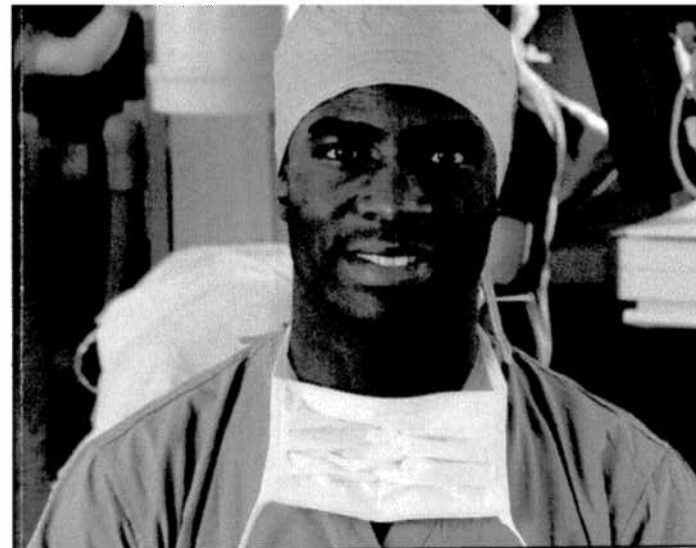

Healthcare Source Insurance is the industry's first online marketplace for Certified Registered Nurse Anesthetists (CRNAs) to obtain quality short-term medical professional liability insurance. This product was developed by leading industry experts in response to a growing demand from independent contractor CRNAs who want to work as anesthesia providers part-time at a variety of healthcare facilities.

## product info .....

We understand that the need for quality medical professional liability insurance is key to enabling you to practice as an independent contractor. Our team consulted with many CRNAs to develop this product – it's fast, convenient, flexible, and affordable.

## the process .....

After completing the quick secure online application, your premium is then calculated based on the number of days of insurance purchased, multiplied by the per diem rate. You can pay by credit card online. Once assigned a user ID and password, the CRNA can order coverage online 24/7. Policy term is one-year, and then renewable.

## features .....

- Simple online application process.
- Insurance cost is \$85 per day.
- One-year policy term and claims-made coverage with a two-year extended reporting period included with fee.
- Work must be within an accredited healthcare facility.
- Full-time annual policies are also available.
- Not available in IN, KS, WI, NY, LA, NM, NE, SC.
- Underwritten by Red Mountain Casualty Insurance Co. a division of the ProAssurance Group rated "A-" by AM Best.
- Experienced Customer Service Staff.
